

HEALTHY STRONGER

WHAT IS MY WATCH ALL ABOUT?

THE MY WATCH PROGRAM IS DESIGNED TO:

Build bridges while removing fences in our local communities.

Spread out a Safety Net for networking neighbors through personal relationships and communication.

Enlist active participants to take a proactive stance in assisting law enforcement, fire department and safety personnel.

Proactively reduce crime and potential safety hazards.

Insure Healthy, Stronger and Safer communities.

PLACES TO LIVE!!!

SAFER

WHAT DOES IT TAKE?

MY WATCH first starts with YOU

Most citizens want to better serve their own Communities, but just don't know what to do.

First step is to contact your local MY WATCH Block Manager to get set up with proper material and training dates.

Second is to get to know your neighbors on a more personnel level. To insure a safer neighboring network we will have to watch out for each other.

Participants will be trained to recognize and report suspicious activities and safety hazards before they become community problems.

IT TAKES EVERYONE

IT'S TIME TO PROTECT WHAT IS RIGHTFULLY OURS

WHY DO WE NEED MY WATCH?

There cannot be law enforcement the fire department and safety personnel on every street corner, but we can.

What goes on in your Community affects you, your family and your neighbors the most.

You and your neighbors are the ones that really know what goes on in your Community. By standing together side by side we leave no room for criminals and negligent opportunities.

By working with each other, law enforcement, fire department, and safety personnel to reduce crime and safety hazards, we can better protect our Family, Friends, and Community.

BETTER TO BE PROACTIVE
THAN REACTIVE!!!
